Imagine the thrill of learning a brand new, comprehensive, state of the art learning center for disabled children is being built in your state which finally meets your special needs. Imagine the joy of knowing that you will be able to study here thanks to federal mandates which guarantee you a place in the school. Imagine what new opportunities await—what new horizons to see. Now imagine the heartbreak of finding out that this remains beyond your grasp. You are an orphan residing in a state institution which lacks the means to transport you to the school. It seems that fate is especially cruel to bring dreams so close yet just beyond reach of reality.

Together, we can change destinies by giving these children a fighting chance to turn their lives around. The Regional Government of the Kirov Oblast has **reached** out to Friends of Frank to ask for support in purchasing a specialized, custom built van equipped with a wheelchair accessible lift which will benefit the physically disabled orphans of the Kirov Oblast. The van will be used to transport orphans around Kirov to the new learning center which is currently being built in the heart of the region. Tragically, without the van, the children who could most benefit from the center, will not have access to it. With your loving support, we can prevent further grief from entering the lives of some of the most disadvantaged children who unfortunately know this too well.

Please join us in person through your participation as a golfer or in spirit as a financial donor for this year's Fore the Children Annual Golf Classic to help create a brighter future for the children of Kirov.
